1. Summary of significant accounting policies

Basis of preparation

The financial report is a special-purpose financial report prepared in order to satisfy the financial reporting requirements of the Associations Incorporation Reform Act (2012). The committee has determined that the association is not a reporting entity.

The financial report has been prepared on an accrual basis. It is based on historic costs and does not take into account changing money values or, except where specifically stated, current valuations of non-current assets.

The accounting policies are consistent with the previous period, unless otherwise stated.

(a) Property, plant and equipment

Fixed Assets are carried at cost less, where applicable, any accumulated depreciation.

All fixed assets except for land are depreciated over their estimated useful lives commencing from the time the asset is held ready for use.

(b) Income Tax

The income of Righteous Pups Australia Inc. is specifically exempt from income tax under Section 50-45 of the Income Tax Assessment Act 1997.

(c) Cash

For the purposes of the cashflow statement, cash includes cash on hand and in banks and investments in money market instruments, net of outstanding bank overdrafts.

(d) Comparative figures

Where required by Accounting Standards comparative figures have been adjusted to conform with changes in presentation for the current financial year.

(e) Revenue

Interest and fee revenue is recognised when earned. All revenue is stated net of amount of Goods and Services Tax (GST).

(f) Impairment of goods

At the end of each reporting period the committee reviews the carrying amount of its tangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists an impairment test is carried out on the asset by comparing the recoverable amount of the asset being the higher of the asset's fair value less cost to sell and value in use to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised in the income statement.

(g) Employer provisions

Provision is made for the associations liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee provisions have been measured at the amounts expected to be paid when the liability is settled.

(h) Trade and other payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the association during the reporting period that remain unpaid. The balance is recognised as a currently liability with the amounts normally paid within 30 days of recognition of the liability.

(i) Good and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except when the amount of GST incurred is not recoverable from the Australian Taxation office (ATO). Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST receivable from or payable to the ATO is included with other receivables or payables on the balance sheet.
